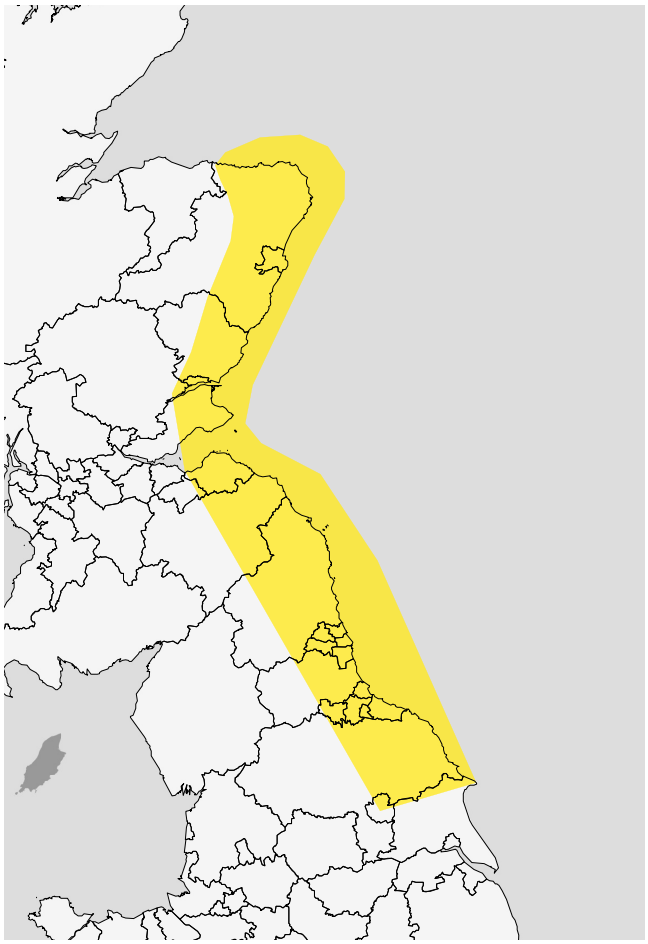
Yellow warning
Wind

Between
06:00 Sat 7 Dec 2024 and
06:00 Sun 8 Dec 2024



Strong winds associated with Storm Darragh likely leading to some disruption and damage.

What to expect

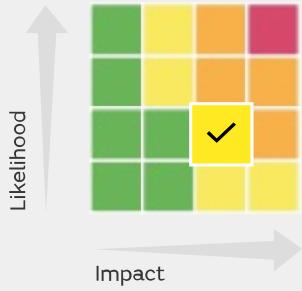
- Injuries and danger to life from flying debris are possible
- Some damage to buildings, such as tiles blown from roofs, could happen
- Road, rail, air and ferry services may be affected, with longer journey times and cancellations possible
- Power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- Injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties
- Some roads and bridges may close

Further details

Storm Darragh could bring a period of strong winds to much of the warning area. The strongest winds are likely as the system clears away on Saturday and overnight into early Sunday, when northerly winds may gust to 65 to 70mph . The wind may cause disruption to travel and affect some infrastructure such as power lines.

What should I do?

Prepare to protect your property and people from injury.



Low likelihood of medium impacts

Further Details (continued)

Check for loose items outside your home and plan how you could secure them. Items include; bins, garden furniture, trampolines, tents, sheds, and fences.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you are on the coast, stay safe during stormy weather by being aware of large waves. Even from the shore large breaking waves can sweep you off your feet and out to sea. Take care if walking near cliffs; know your route and keep dogs on a lead. In an emergency, call 999 and ask for the Coastguard.

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
